**Longmont United Hospital Participates in 9Health Fairs**

Longmont....For the past four years Longmont United Hospital has participated in the 9Health Fairs and continues to be dedicated to improving the health of the communities it serves. Longmont United Hospital initially started participating in 9Health Fairs at Bethlehem Lutheran Church in Longmont. Today there are six sites that Longmont United Hospital supports in Longmont, Berthoud, Lyons, Niwot and Frederick (listed below). As a sponsor of the 9Health Fairs you can expect to see Longmont United Hospital staff volunteering their expertise in all facets of the 9Health Fairs.

“We are pleased to assist in offering affordable health care screenings to our communities,” said Mitchell Carson CEO of Longmont United Hospital. “Our collaborations with the 9Health Fair, our clinics, medical volunteers, local churches and citizen groups help make this important outreach possible.”

Each Fair offers free or low cost health screenings including weight, height, and blood pressure exams, colon screenings (\$5), prostatic specific screenings (\$25), vision screenings, and 31 component blood chemistry analysis (\$30). You must be over 18 to participate. For further information or to volunteer contact 9Health Fair 303.698.3799 or [www.9HealthFair.com](http://www.9HealthFair.com).
